פרטים נוספים

Power User

Life moves fast and so do you. Do more, faster with the latest Intel® Core™ i processors. Boot up and access your applications more quickly with PCIe solid-state drives that provide faster data access and increased data stability compared to traditional hard drives. They also give you better battery life with up to 9 hours of

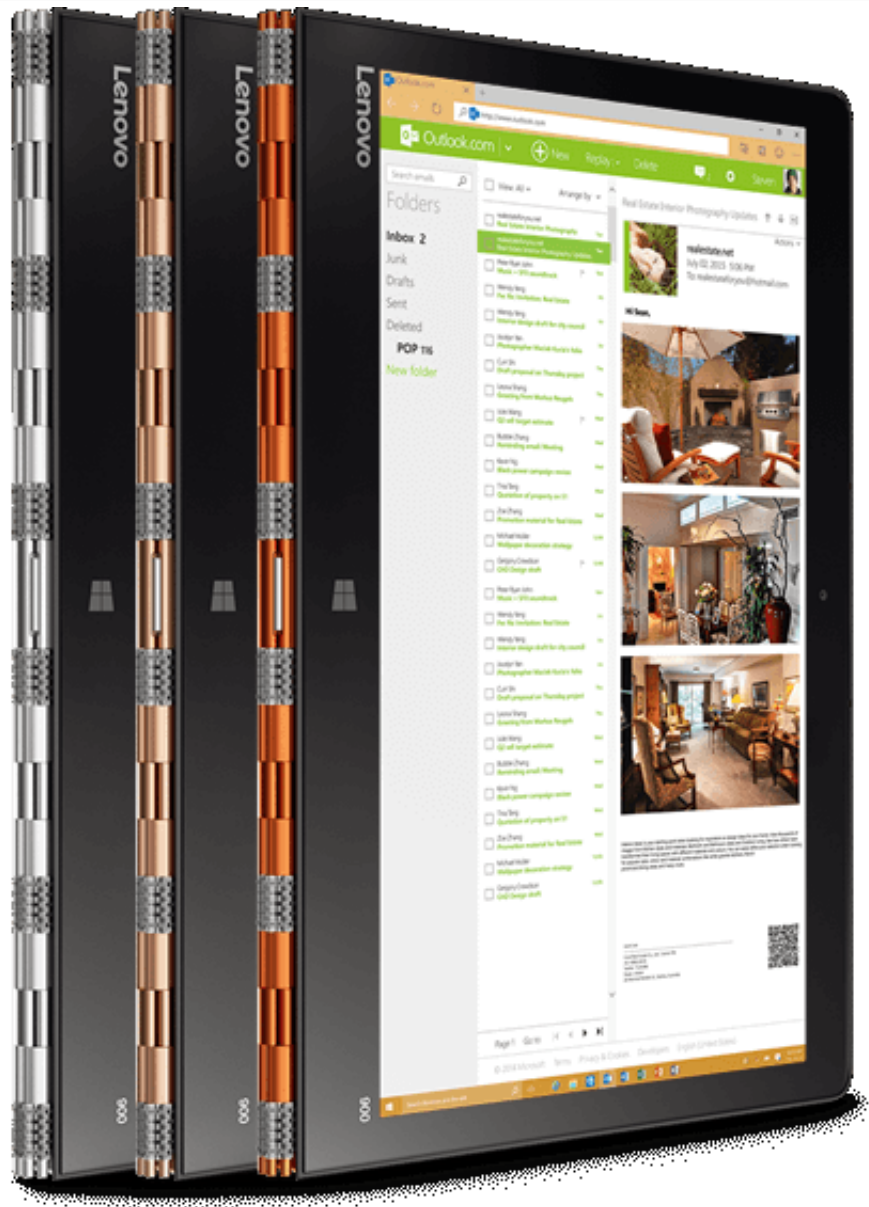

video playback.

*Requires BIOS to be updated to V32 available 26th October 2015. Testing is based on display brightness set at 200 nits and WiFi off. Battery life (and recharge times) are approximate and will vary based on various factors including system settings, features selected, and usage. The maximum capacity of the battery will naturally decrease with time and usage.

On the Go

Starting at a mere 1.29 kg and just 14.9mm thick, the Yoga 900 is ultraportable — it`s perfect for life on the go, and is the world`s thinnest Intel® Core™ i convertible.* Bend it, flip it, or fold it to experience your apps in a way you never have before.

*Based on a review of the major OEM websites on the October 9, 2015

Available in three color options

Work or Play

The QHD+ display with In-Plane Switching (IPS) technology allows for vivid colors and looks great from any angle. Into marathons? Enjoy movies or TV shows from your favorite streaming service. Working from home? Take productivity to the next level with an improved keyboard and dedicated function row and enjoy web conferences or online video chats like you're really there with the integrated webcam.

Cool Factor

It's in the details. We re-engineered the fan to allow the Yoga 900 to stay thin and cool. Specially designed vents in the hinge allow for excellent cooling, dust-resistance, and a clean design that's quiet. And it's beautiful. The elegant hinge is composed of 813 individual components for fluid transitions between modes. Auto Lock hinge technology allows you to easily open and close the laptop, even with one hand.

Multiple ways to use your Yoga

Accelerate Productivity

Multitasking is no problem with the Yoga 900. It can support up to 16GB of memory to make sure all your applications keep up with you. Build images, edit video, or run other graphic intensive programs with the optional Intel® Iris™ graphics card. It renders graphics more efficiently-separately from the CPU- giving you a more visually remarkable, more fluid and more enjoyable experience.

Premium Look and Sound

Pick a pop of color with Clementine Orange, dazzle with Champagne Gold, or stick with sleek Platinum Silver, whatever color you choose, you`ll stand out from the crowd. You can also drown out distractions with JBL speakers that deliver rich stereo sound and premium Dolby® Home Theater® for an immersive audio experience wherever you are.

On the go 2-in-1 laptop

McAfee LiveSafe® Free Trial

Keep your entire digital life secure with the comprehensive protection afforded by McAfee LiveSafe software. LiveSafe protects cross-device, through the cloud, and locally to ensure total security for your data and identity. Enjoy a free 30-day trial with purchase. Or, upgrade to the full version during the purchase process and enjoy peace-of-mind security from day one.
